2019

Su frescura le convierte en la CANCION DEL VERANO, recomendando su degustación a 16-17° de temperatura. Para platos de cuchara, para todo tipo de carnes, quesos curados, embutidos, barbacoas, y postres con base de chocolate negro.

De color rojo rubí intenso con ribete rojo.
Capa media alta.

Muy compleja, franca y limpia. Predominan perfume a la fruta roja madura, con toques de fruta en licor, lácteos, eucalipto, higos y especiados. Muchos recuerdos a monte bajo y tabaco. Se percibe la ligereza de una madera muy bien integrada.

Destaca la calidez y jugosidad de la fruta de Toro, percibimos su gran personalidad con una acidez sorprendente que le aporta gran frescura. Es un tinto alegre, con fruta en licor con toques balsámicos, recuerdos a higos, especiado, notas de hierbas de monte. La sedosidad abraza el paladar con un tanino imperceptible bien pulido, y enamora su persistencia. Y continua su frescura... sorprendiéndonos a cada sorbo.

Intenso y jugoso
Intense and juicy

Its freshness makes it the perfect SUMMER HIT. The recommended serving temperature is 16-17° C. The best choice to drink with stews, all kinds of meats, mature cheese, cold meats, barbeques and dark chocolate-based desserts.

Bright ruby red colored wine with a red rim.
Medium-high robe.

It is very complex, honest and clean. A perfume of ripe red berries stands out, with touches of fruit in liqueur, dairy, eucalyptus, figs and spice. Many hints of forest floor and tobacco can be found too. The lightness of a very well-integrated wood can be appreciated.

It is worth highlighting the warmth and juiciness of Toro's grapes. The strong personality comes out on the palate while displaying just the right level of acidity that adds freshness to it. This is a joyful red featuring fruit in liqueur with balsamic notes, hints of figs and herbs, and a touch of spice. The silkiness that well-polished and subtle tannins provide embraces the palate leaving a lovely long-lasting feeling. And still the freshness is not gone, we can sense it at every sip.
